INTERNATIONAL MASTER DEGREE COURSE IN
DESIGN FOR THE BUILT ENVIRONMENT

fundamentals dbe

academic year
2022>2023

dipartimento di architettura
università degli studi di napoli federico II
scuola politecnica e delle scienze di base

Welcome to DBE

“Fundamental dbe” is a collection of short contributions by the Professors of the Master Degree Course. These “disciplinary pills” are useful to introduce preliminary issues that will be deepened during the courses. Every issue also foresees a short exercise aimed to let incoming students start their individual training before their arrival in Naples. For the students it is not mandatory to work on them, but it is strongly recommended as an operative tool to align students’ technical and critical skills to the Course standards and themes. See you soon in Naples!
